ABOUT COMPANY

PT. Global Infinity Mandiri adalah perusahaan swasta yang bergerak di bidang produksi produk bahan kimia yang banyak digunakan di berbagai macam industri serta menyediakan berbagai macam kebutuhan laboratorium baik dari reagent maupun perlengkapan. Kami hadir untuk memberikan solusi kimia yang aman, berkualitas, dan dapat diandalkan bagi mitra bisnis di berbagai sektor, mulai dari perusahaan manufaktur, lembaga pendidikan, hingga individu yang melakukan penelitian.

Didirikan pada tahun 2025, usaha ini berawal dari visi untuk menghadirkan layanan penyediaan bahan kimia dengan standar kualitas internasional, namun tetap kompetitif dan fleksibel sesuai kebutuhan klien. Kami berkomitmen untuk menjadi mitra strategis bagi setiap klien, baik skala kecil maupun besar.

PT. Global Infinity Mandiri tidak hanya berfokus pada produksi produk yang berkualitas serta sesuai dengan kebutuhan konsumen juga memberikan pendampingan dan konsultasi agar setiap klien mendapatkan solusi terbaik sesuai kebutuhan spesifik mereka. Selain menyediakan umum seperti pelarut, reagen laboratorium, dan bahan baku industri, kami juga siap membantu dalam pengadaan bahan kimia khusus atau yang sulit ditemukan. Mendukung terciptanya industri kimia yang berdaya saing global, namun tetap beretika kami optimis mampu terus berkembang menjalin kemitraan yang luas, serta memberikan dampak positif bagi para klien dan mitra.

BUILDING TRUST

VISI & MISI

VISI

Menjadi mitra terpercaya dalam penyediaan bahan kimia yang inovatif, berkualitas, dan berkelanjutan, untuk mendukung perkembangan industri dan riset di tingkat nasional maupun global.

MISI

01

Menghadirkan bahan kimia yang aman, terjamin, dan sesuai standar internasional

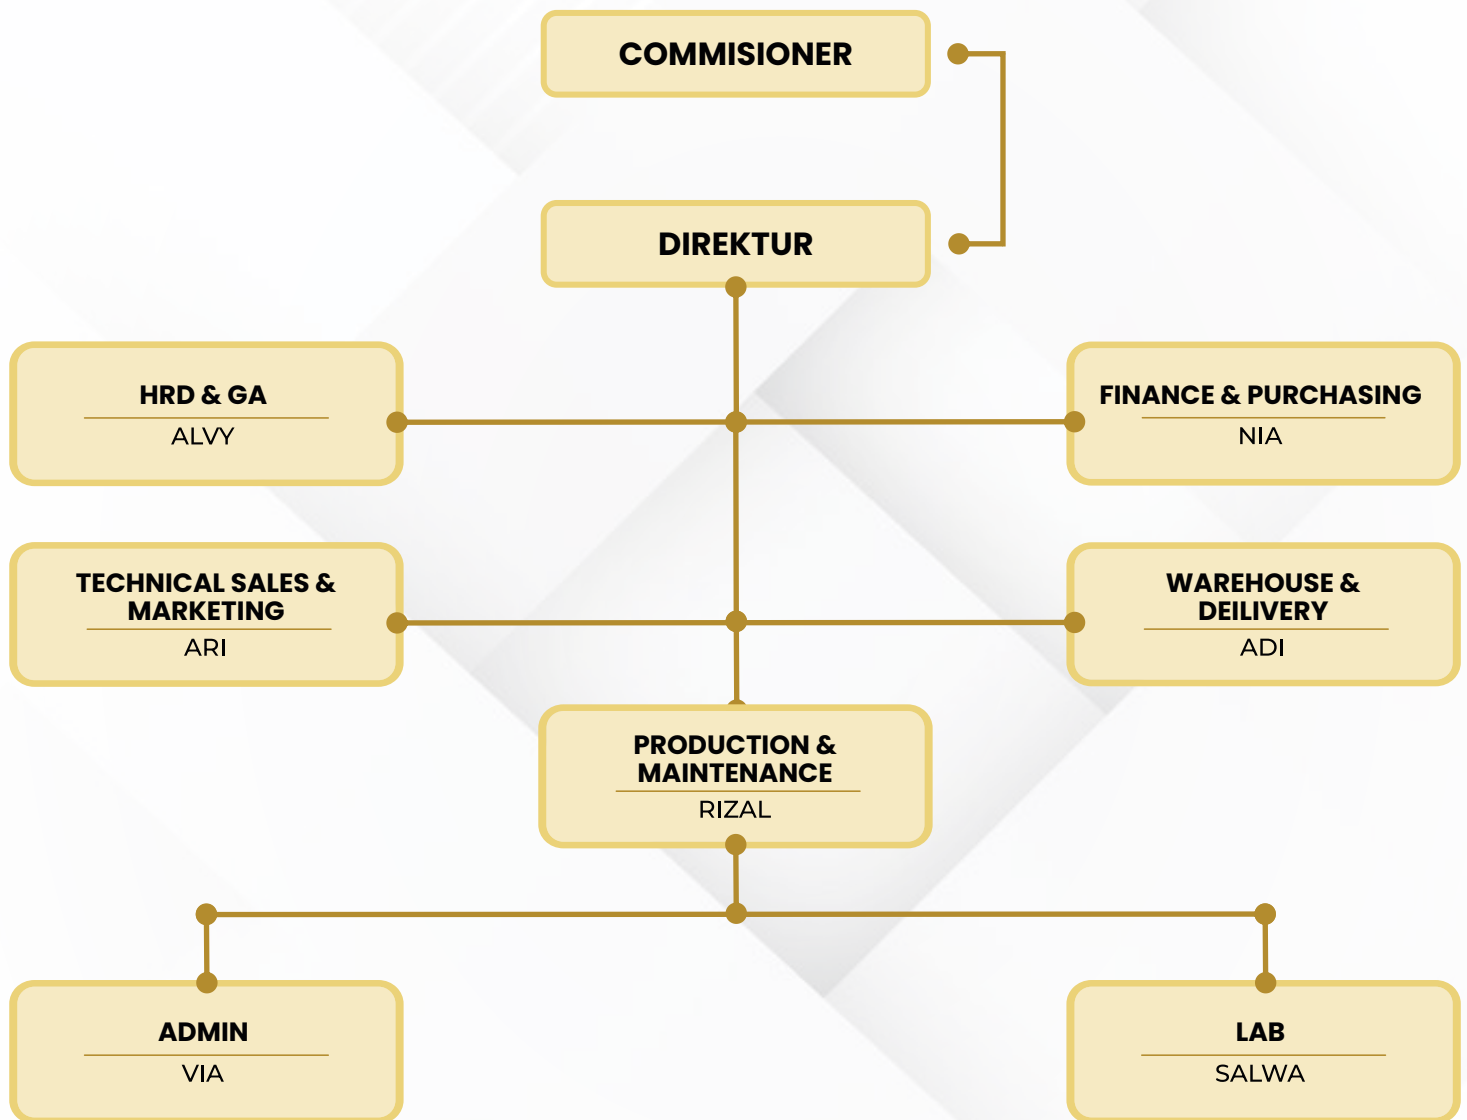

Memberikan layanan yang
Responsif & Personal

02

03

Membangun kepercayaan dan hubungan jangka panjang

OUR PRODUCT

NATURAL RECOURCES & MINERAL

NATURAL RECOURCES

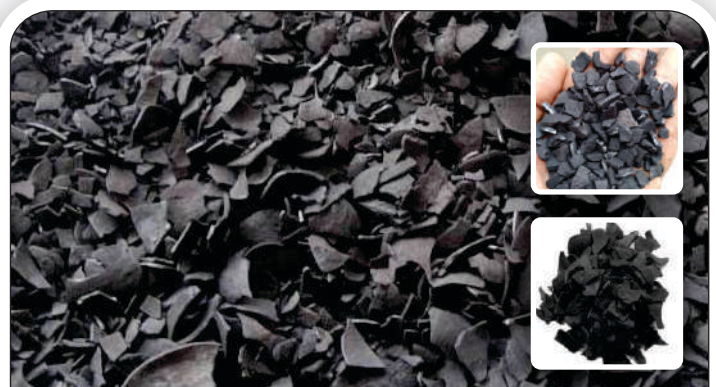

01 Chemical Type Rice Husk Ash

Rice husk ash (RHA) is a waste material from rice that has special properties, namely containing chemical compounds that can be pozzolan, namely containing silica (SiO_2), a compound that when mixed with cement and water can be used to increase the compressive strength and tensile strength of concrete.

Product

1. Metal & Steel
2. Cement & Concrete Industry
3. Rubber Industry
4. Paint Industry
5. Glass Industry
6. Refractories

02 Chemical Type Coconut Shell Charcoal

Coconut Shell Charcoal is simply charcoal product that are originally from coconut shell. Coconut Charcoal provides several benefits to its users. First, it has higher burning point and relatively longer burning time. Thus, it is an excellent raw material for manufacturing coconut charcoal briquettes and activated carbon. Furthermore, it also produces less smoke and has a natural scent, which makes it convenient to use for various applications.

Product

1. Water purification & Filtration
2. Metallurgy & Gold Mining
3. Activated Carbon Industry
4. Cosmetics & Beauty Product
5. Charcoal Briquettes

OUR PRODUCT

NATURAL RESOURCES & MINERAL

MINERAL

01 Chemical Type Bentonite

Rice husk ash (RHA) is a waste material from rice that has special properties, namely containing chemical compounds that can be pozzolan, namely containing silica (SiO_2), a compound that when mixed with cement and water can be used to increase the compressive strength and tensile strength of concrete.

Product

1. Drilling Mud
2. Cat Litter
3. Foundry-sand bond in iron and steel foundries
4. Ceramics Industry
5. Refractories Industry
6. Filler in a wide variety of product (adhesive, cosmetics, paint, soaps)

02 Chemical Type Dolomite

Dolomite is fine ground natural calcium magnesium carbonate powder with high purity of stone mineral. Product has stable particle size distribution. Mostly used in agriculture industries and chemical industries.

Product

1. Agriculture
2. Construction Industry
3. Metal processing Industry
4. Glass Manufacturing
5. Water Treatment
6. Chemical Industry
7. Horticulture
8. Animal Feed
9. Oil Industry

OUR PRODUCT

NATURAL RESOURCES & MINERAL

MINERAL

03 Chemical Type Calcium Oxide (Quicklime)

Calcium oxide (CaO), commonly known as Quicklime or Burnt lime, is a widely used chemical compound. It is a white, caustic, alkaline, crystalline solid at room temperature. By contrast, quicklime specifically applies to the single compound calcium oxide

- 01 Component in cement & mortar
- 02 Waste water treatment
- 03 Agriculture
- 04 Iron & Steel
- 05 Manufacturing Pulp & Paper
- 06 Calcium Salt Production
- 07 Flue Gas Treatment

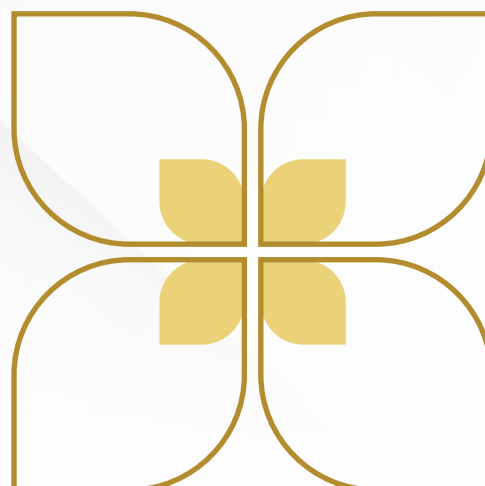

04 Chemical Type Calcium Carbonate (Limestone)

Calcium carbonate is a chemical compound with the chemical formula CaCO_3 . It is a common substance found in rocks as the minerals Calcite and Aragonite, most notably in Chalk and Limestone, Egg shell, Gastropod Shell, shellfish Skeletons, and Pearls.

- 01 Pulp and Paper Industry
- 02 Paint Industry
- 03 Plastic Industry
- 04 Glass Industry
- 05 Construction Industry

OUR PRODUCT

NATURAL RESOURCES & MINERAL

MINERAL

05 Chemical Type Zeolite

Natural Zeolites are hydrothermal and mainly volcanic origin. They can occur both in crystallized forms found in igneous and metamorphic rocks, as well as in grains of smaller diameters accumulated in sedimentary rocks.

- 01 Stone Ceramics
- 02 Construction Industry
- 03 Cement & Concrete
- 04 Water & Waste Water Treatment
- 05 Adsorption & Catalyst
- 06 Agriculture
- 07 Agronomy & Horticulture
- 08 Aquaculture
- 09 Animal – Waste Treatment

GLOCHEM CHEMICAL PRODUCT

GLOCHEM Chemical Product offers a complete range of high-quality industrial chemicals designed to meet the needs of various sectors, including manufacturing, automotive, construction, and surface coating industries. Each product is formulated to deliver superior stability, excellent performance, and consistent quality.

With a strong commitment to innovation, safety, and sustainability, GLOCHEM has become a trusted partner for industrial businesses across Indonesia and beyond.

- 01 **Glochem Cleaner & Solvent Cleaner**
- 02 **Glochem Universal Cleaner**
- 03 **Glochem Antifoam**
- 04 **Glochem Antirust & Paint Remover**
- 05 **Glochem CRM**
(Certified Reference Materials)
- 06 **Others Chemical**

CHEMICAL

DELIVERING QUALITY,
BUILDING TRUST

GLOCHEM CLEANER & SOLVENT CLEANER

Glochem Product

01 **Glochem HAB 45**

Alkaline cleaner for spray system applications.

Glochem Product

02 **Glochem HAB 46**

Alkaline cleaner formulated to remove stubborn oil and grease

Glochem Product

03 **Glochem ACB 35**

Ultrasonic cleaner (acid-based) for removing dirt and scale.

Glochem Product

04 **Glochem ALB 42**

Ultrasonic cleaner (alkaline-based), ready to use for maintenance cleaning.

Glochem Product

05 **Glochem Carbon Remover (CR) 72**

Carbon cleaner for removing deposits from metal parts and components.

Glochem Product

06 **Glochem HAB 47**

Cleaner providing temporary corrosion resistance.

Glochem Product

07 **Glochem AL 138**

Neutral pH cleaner, ideal for cleaning soft metals.

Glochem Product

08 **Glochem AL 139**

Alkaline cleaner formulated to remove stubborn oil and grease.

Glochem Product

09 **Glochem AL NAC 073**

Ready-to-use neutral cleaner for regular cleaning and maintenance.

Glochem Product

10 **Glochem Solven Cleaner 4650**

High-performance solvent cleaner for precision cleaning.

Glochem Product

11 **Glochem Solven Cleaner 4750**

Cost-efficient solvent cleaner for generalpurpose use.

Glochem Product

12 **Glochem SURF 32 WR**

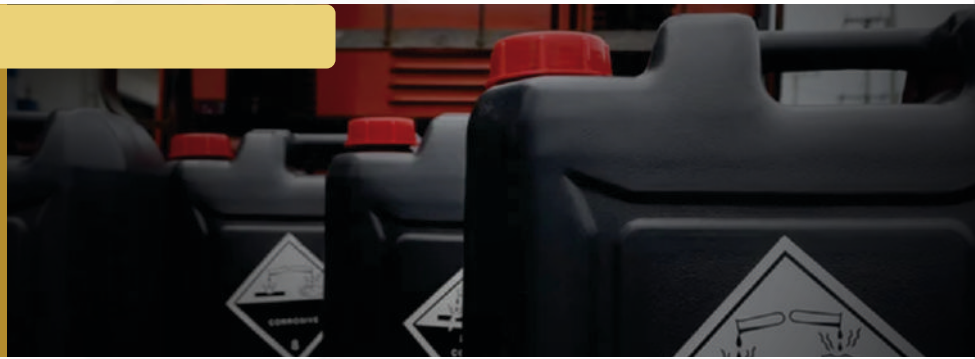

Surfactant for spray systems, providing excellent wetting and spreading performance with low foam.

Glochem Product

13 **Glochem SURF 12 C**

Premium quality surfactant delivering rich, stable foam for superior cleaning and emulsifying performance.

DELIVERING QUALITY,
BUILDING TRUST

GLOCHEM UNIVERSAL CLEANER

01 Glochem Product

Glochem UC 011

Industrial cleaner for motor parts and electrical components.

02 Glochem Product

Glochem UC 012

Industrial degreaser for heavy-duty equipment and machinery.

03 Glochem Product

Glochem UC 013

Engine cleaner for industrial maintenance applications.

04 Glochem Product

Glochem UC 014

Cleaner for automotive industries, suitable for car wash use.

05 Glochem Product

Glochem UC 015

Cleaner for home and light industry, ideal for carpet cleaning.

06 Glochem Product

Glochem UC 016

Engine cleaner for industrial and mechanical parts.

07 Glochem Product

Glochem UC 017

Car wash cleaner for general automotive use.

08 Glochem Product

Glochem UC 018

Carpet cleaner for household and commercial purposes.

09 Glochem Product

Glochem UC 019

Oven cleaner for household or industrial kitchen maintenance.

10 Glochem Product

Glochem UC 020

Glass cleaner for clear and streak-free surfaces.

11 Glochem Product

Glochem UC 021

High-pressure steam cleaner for heavy-duty cleaning.

12 Glochem Product

Glochem UC 022

Air conditioner cleaner for cooling system maintenance.

DELIVERING QUALITY,
BUILDING TRUST

GLOCHEM ANTIFOAM

Glochem ANFO 6700

01

An effective anti-foam agent formulated for water-based cleaning systems, providing stable and consistent performance.

Glochem ANFO 6710

02

A silicone-based anti-foam solution designed to control foam in water-based cleaning applications with excellent

Glochem ANFO 6720

03

A versatile anti-foam product suitable for various water-based cleaning processes, ensuring smooth and efficient operations.

GLOCHEM ANTI RUST & PAINT REMOVER

01 Glochem Product Glochem AR 2550

An economical anti-rust agent formulated for general protection.

02 Glochem Product Glochem AR 2560

Long-lasting anti-rust protection for extended surface durability.

03 Glochem Product Glochem AR 2570

High-performance anti-rust solution providing superior corrosion resistance.

01 Glochem Product Glochem PR 400

Solvent-based paint remover designed for effective coating removal.

02 Glochem Product Glochem RP 410

Acid-based paint remover for strong and efficient cleaning performance.

03 Glochem Product Glochem PR 420

Alkali-based paint remover suitable for various industrial applications.

04 Glochem Product Glochem PR 430

Ready - to use alkali-based paint remover suitable for various industrial applications.

DELIVERING QUALITY,
BUILDING TRUST

GLOCHEM CRM (CERTIFIED REFERENCE MATERIALS)

01 Glochem CRM For Alumunium base Solid

Certified reference materials for analysis and calibration of aluminium-based solid samples.

02 Glochem CRM For Combustion Materials

Used for calibration and verification in combustion analysis of carbon, sulfur, and related elements.

03 Glochem CRM Copper Base Solid

Reference standards for accurate composition testing of copper and its alloys.

04 Glochem CRM Geological Materials

Used for calibration and quality control in geological and mineral analysis.

05 Glochem CRM Iron Base Chips & Powder

Reference materials designed for chemical and physical testing of iron-based powders and chips.

06 Glochem CRM For Iron Base Solid

Certified materials for spectrometric and chemical analysis of solid iron samples.

07 Glochem CRM For Industrial Material

Applied for calibration and performance verification in various industrial material analyses.

08 Glochem CRM Nickel Base Solid

Standards for calibration in analytical testing of nickel and nickel alloy solids.

09 Glochem CRM Other Metal Solid

Reference materials for solid samples of nonferrous metals to ensure analytical accuracy.

10 Glochem CRM Other Metal Base Chips & Powder

Designed for analysis and calibration of nonferrous metal chips and powders.

11 Glochem CRM Setting-UP Samples

Used as reference samples for setting up and verifying instrument performance before routine analysis.

OTHER CHEMICAL

01 Glochem Product **Glochem OSD 3530**

Oil spill dispersant used for both marine and land-based applications.

02 Glochem Product **Glochem OFC 4510**

Applied in oil field operations, particularly for water injection systems.

03 Glochem Product **Glochem OGC 8450**

Biocide solution designed to control microorganism growth in industrial systems.

04 Glochem Product **Glochem MF 5030**

Formulated for fouling control and system performance maintenance.

05 Glochem Product **Glochem EEB 6320**

Emulsifier and breaker used in oil field production processes.

06 Glochem Product **Glochem ACID PICKLING**

Acid solution used to remove iron oxide and clean metal surfaces.

07 Glochem Product **Glochem ACID INHIBITOR**

Additive that prevents metal corrosion during acid pickling operations

08 Glochem Product **Glochem FLUX**

Preparation solution for steel before galvanizing to prevent rust formation.

09 Glochem Product **Glochem ZINC COATING**

Zinc-based coating solution for protecting galvanized steel from corrosion

10 Glochem Product **Glochem PASSIVAS**

Chromate solution designed to form a protective passive layer on metal surfaces.

DELIVERING QUALITY,
BUILDING TRUST

INDUSTRIAL PARTS

Product

GASKETING

Gasketing, also known as a packing, or a toric joint, is a mechanical gasket in the shape of a torus. It is a loop of elastomer with a round cross-section, designed to be seated in a groove and compressed during assembly between two or more parts, creating a seal at the interface.

MEP DIVISION

Mechanical, Electrical, and Plumbing (MEP) systems play a vital role in ensuring that buildings operate optimally, safely, and efficiently. We provide integrated MEP solutions, from design and installation to maintenance, tailored to the specific needs of each project.

PTFE PIPE & FITTING LINED

Machine parts, pipes, expansion joints etc. Based on Polyfluoroethylene have all the advantages of the PTFE base material. Products out of PTFE have an excellent corrosion resistance, even at extreme temperatures between -190°C and $+260^{\circ}\text{C}$.

Resistance Against :
Acids | Caustic Soda | Chlorides | Sulfates | Oxidants

GLAND PACKING

Gasketing, also known as a packing, or a toric joint, is a mechanical gasket in the shape of a torus. It is a loop of elastomer with a round cross-section, designed to be seated in a groove and compressed during assembly between two or more parts, creating a seal at the interface.

Base Material :

- ◆ Expanded Graphite
- ◆ Pure PTFE
- ◆ Aramid/Kevlar
- ◆ Fiberglass
- ◆ Asbestos
- ◆ PTFE Graphite
- ◆ Carbon
- ◆ Ramie/Cotton
- ◆ Ceramic

JET BELLOW TELESCOPIC

Jet Bellows or Telescopic is tool or equipment which is used for many industry. It can be used as ducting or distribution material such as air, dust, coal or cement. We have many kind raw material Jet Bellow or Telescopic. We design and try to give solution with what our customer's needs.

INDUSTRIAL PARTS

Product

EXPANSION JOINT

In several types of industry, the piping system plays an important role such as conveying fluids. However, sometimes there is an issue with the conveyance due to pressure and vibration. Prolonged issue could lead to bad consequences and even explosion. To prevent this, the piping system must be equipped with several features one of which is to install an Expansion Joint into the piping system.

01 Metallic
Expansion Joint

02 Fabric
Expansion Joint

03 Rubber

INSULATION

REMOVABLE THERMAL INSULATION

Removable Thermal Insulation is a flexible insulation system specifically designed to provide maximum thermal protection for industrial equipment such as pipes, valves, flanges, and exhaust systems. It helps reduce heat loss, improve energy efficiency, and maintain stable operating temperatures. Constructed from high-quality, heat-resistant materials, this removable insulation can be easily detached and reinstalled without damaging the main insulation layer. This feature allows for faster and more efficient inspection, maintenance, and repair processes—without disrupting plant operations.

Advantages :

- Reusable and long-lastingMinimizes energy loss and reduces operational costs
- Simplifies equipment inspection and maintenance
- Protects personnel from high-temperature exposure
- Customizable in size and shape for various industrial applications

WHY CHOOSE US

Product

We are more than just a supplier of natural resources — we are your strategic partner in delivering premium-quality minerals that drive productivity and long-term growth. Every product we provide reflects our commitment to quality, sustainability, and trust.

Our Strengths & Advantages

Reliable and On-Time Supply

With a robust logistics network and extensive distribution channels, we guarantee stable supply and punctual delivery, even for large-scale production demands.

Tailored Solutions for Every Client

Every business has unique needs. Our expert team provides customized solutions, from material selection to technical support, ensuring optimal results for your operations.

We believe true quality is built on dedication and trust. Partnering with us means gaining not only superior mineral products but also a long-term partnership that supports sustainable success for your business.

Proven and Consistent Quality

We are more than just a supplier of natural resources — we are your strategic partner in delivering premium-quality minerals that drive productivity and long-term growth. Every product we provide reflects our commitment to quality, sustainability, and trust.

Sustainable and Responsible Practices

We are more than just a supplier of natural resources — we are your strategic partner in delivering premium-quality minerals that drive productivity and long-term growth. Every product we provide reflects our commitment to quality, sustainability, and trust.

Integrity and Full Transparency

We operate with honesty and accountability. From extraction to delivery, every process adheres to international regulations with full transparency and traceability.
